Subject: 2001 Internal Communications Survey

"We'd like you to fill out this survey about Enron's Corporate Internal Communications programs. Why? Because our job is to advance your job by providing internal communications tools and information that will help you work more effectively. And don't worry. The survey is confidential.

How can you be assured that completing this survey is not a waste of your time?

1. We will post all of the numerical results on Enron's corporate intranet. (Probably not the individual comments, though, because that would be way too much to read!)
2. Our programs are based on what you want, so we need your feedback to assess how we're meeting your needs and where we can make improvements.

The survey will only take you about ten minutes or less, honest. Thanks for participating.

Subject: mass ack

Greetings all. This is a mass acknowledgement to everyone who has signed on to the plan9-fans list to date, now that influx has slowed down a bit. (There are 75 people on the list right now.)

One person has suggested that the name of the list be changed to 9fans. There's already an alias for that, in any event.

The list is not being archived (that I know of). If someone wants to do it, that would be great.
