

Phishing Email Detection

Thank you for considering participation in our research study. Please note that this survey consists of four segments which will take approximately 30 minutes to complete in total. After completing each segment, you will be provided with a new link that you will need to click to be directed to the next one. We encourage you to complete all four segments consecutively without a break, as they collectively comprise a single research study. Your responses are valuable to us, and we appreciate your time and effort!

LETTER OF CONSENT

Dear Participant,

I am a graduate student under the direction of Dr. Minhaz Zibran, Associate Professor, Department of Computer Science at the Idaho State University. I am conducting a course study (CS 6672 - Research Methods in Human Computer Interaction) under the direction of Dr. Farjana Eishita, Assistant Professor, Department of Computer Science at the Idaho State University to investigate the role of visual cues and its effects on user performance in detecting phishing emails.

For this study, you will fill up this questionnaire.

I am requesting your participation, which will involve approximately 30 minutes. Your participation in this study is voluntary and no direct benefit to you. **Declining to participate in this study will have no effect on you.** You can choose not to participate or to withdraw from the study at any time. The results of the research study may be published, but **any of your information will not be used.**

If you have any questions concerning the research study, please email me at mdfazlerabbi@isu.edu.

Sincerely,
Md Fazle Rabbi
